

Dear Valued Customer,

Great News! TOLMAR, a highly successful dental and dermatology product development company, and Zila, a well-established dental products company, have now officially joined forces!

These two innovative dental companies have now combined to offer you an impressive line of professional dental care products. Zila, a division of TOLMAR, as the new company is called, provides a combined range of high-quality products surrounding consumable home care products, in-office diagnostics, acute care products, and prevention tools that allow you to effectively treat your patients to the highest professional standards.

You will continue to have access to the wide range of Zila products you are already familiar with such as the Rotadent® automatic toothbrush, the award-winning Pro-Select Platinum® scaler, and our deep line of products surrounding the Zila Soft Tissue Management® program.

We are proud to offer ATRIDOX®, our locally applied antibiotic, for use in treating adult periodontal disease. Also, we are excited to continue the growth and market acceptance of our innovative and cost-efficient oral cancer screening product, ViziLite® Plus with TBlue®, which recently won a 2008 Hygiene Townie Choice Award.

Let me assure you that the new Zila has the financial stability, experience, products, and services to help you care for your patients while contributing to the success of your practice. You can continue to order Zila products at 800-228-5595. For TOLMAR product orders, please call 877-TOLMAR1 (877-865-6271).

I and the entire TOLMAR and Zila team are committed to you and to your success in treating your patients. Please feel free to contact me directly with any question or comment you may have. My direct email address is mikeduncan@tolmar.com. You can also visit www.zila-dental.com to learn more about this exciting news.

Thanks for your continued support,

Michael R. Duncan, CEO
TOLMAR Inc.
